

HUMAN FACTORS IN CRASH INVESTIGATION AN INTRODUCTION

The Transportation Safety Training Center of Virginia Commonwealth University will conduct two **Human Factors In Crash Investigation—An Introduction** courses in the spring of 2010. The 2-day training workshop will focus on the following motor vehicle crash investigation and reconstruction topics:

- Multi-disciplinary Crash Investigation Techniques – The Interaction between the Vehicle, Roadway and Driver
- General Principles of Human Factors Psychology
- Driver Characteristics
- Perception-reaction times
- Effects of vehicle and roadway characteristics
- Occupant kinematics
- Restraint Use
- Interviews and witness statements

REGISTRATION

This course is free of charge, but is limited to the first 25 students.

Pre-requisite: Students should have successfully completed **Fundamentals of Crash Investigation and Reconstruction (TSTC)**, **At-Scene Traffic Crash Investigation (IPTM)** or the equivalent.

To register for this course, mail the registration form to the Transportation Safety Training Center, PO Box 843023, Richmond, Va. 23284-3023 or fax it to us at (804) 828-1848. We will confirm enrollment by mail, telephone, fax, or email. Online registration is also available at the TSTC website.

The Department of Criminal Justice Services has approved this course for law enforcement in-service training credits.

Transportation, lodging and meals are the responsibility of each student. Classes will begin at the times listed for each session.
