

DEPARTMENT OF OTOLARYNGOLOGY

Head and Neck Surgery

Thursday Conference Schedule

(Unless otherwise stated, all conferences are held in the Otolaryngology Conference Room, AD Williams Building, Suite 402)

March 2007

- 03/01 7:30-8:30 AM **Profile Reduction and Augmentation in Rhinoplasty**
Michael Godin, MD
In this conference participants will review the role of synthetic implants in cosmetic neoplasty. At the end of this conference, the participants will be able to explain the ethical considerations involved in changing the profile.
- 8:30-9:30 AM **Neuroradiology Conference**
Warren Stringer, MD, Neuroradiology, VCUMC
In this conference, the diagnostic imaging studies of patients seen during the past two to four weeks are presented and interpreted by otolaryngology residents. At the conclusion of this program the participants will have the ability to analyze and interpret diagnostic imaging studies from the cases presented. A neuroradiologist is present at this conference to assure and discuss interpretations and clinical implications
- 03/08 7:30-8:30 AM **Pathology Conference (Pathology Dept., 6th Floor Gateway)**
Celeste Powers, MD, Pathology, VCUMC
In this conference, which takes place at the pathology lab, the slides of biopsies obtained from our clinical practice during the previous two weeks are reviewed. Residents are to review the slides and the pathologist serves as moderator to assure that the findings are described properly. At the end of each pathology slide review, the pathology attending makes a short presentation regarding the particular case under review. At the end of each pathology slide review, the participants will be able to analyze and describe their findings for the case(s) presented.
- 8:30-9:30 AM **Complications of Sinusitis**
Evan Reiter, MD
At the end of this conference participants will be able to recognize signs and symptoms of intra- and extra-cranial complications of sinusitis, and carry out a cost-effective diagnostic workup. In addition, the participant will be able to initiate appropriate medical treatment, and understand the role of the otolaryngologist and neurosurgeon in the treatment of such complications.
- 03/15 7:00-8:00 AM **GME Lecture Series (Residents only)**
- 7:00-8:30 AM **Faculty Meeting**
- 8:30-9:30 AM **Current Concepts of Mandible Fractures**
Howard Krein, MD, Department of Otolaryngology, VCUMC
In this conference participants will identify and contrast current treatment options for mandible fractures. At the end of this conference, participants will be able to describe applicable procedures and select those most beneficial to the patient.
- 03/22 7:30 – 8:30 AM **Parapharyngeal Space Masses**
Dave Salley, MD, , Department of Otolaryngology, VCUMC
At the conclusion of this program, the participants will be able to define and discuss the anatomy of the parapharyngeal space, identify the types of pathology seen in parapharyngeal space and outline various surgical approaches to parapharyngeal space tumors/pathology
- 8:30 – 9:30 AM **Aerodigestive Foreign Bodies**
Cristina Baldassari, MD & Kelley Dodson, MD, Department of Otolaryngology
- 03/29 7:30 – 8:30 AM **QA/M&M – Closed Conference, Otolaryngology Staff and Residents Only**
Residents, Otolaryngology, VCUMC
At the close of this presentation the participants will be able to pinpoint areas of suboptimal outcomes and devise plans for improving and maintaining good outcomes through review of operating room, emergency room, and office/clinic patient concerns
- 8:30 – 9:30 AM **Evidence Based Medicine**
Andrew Heller, MD, , Department of Otolaryngology, VCUMC
In this conference, participants will review the current literature in Otolaryngology – Head and Neck Surgery. Journal articles will be discussed and analyzed in great detail, according to the principles of Evidence Based Medicine. Participants will be instructed in proper methods to review the literature and analyze research techniques. At the conclusion of this session, attendees should be able to critically appraise the medical literature and incorporate new findings into everyday clinical practice.
