Program Description:	Lions Camp Merrick's Glyndon Diabetes Program is celebrating its 25th successful year in operation. Located in Charles County, Maryland along the shores of the Potomac River, Camp Merrick provides week-long residential camping experiences for children with diabetes. Campers enjoy traditional camp activities in a setting that encourages self confidence, independence, and growth. The program includes archery, swimming, arts and crafts, high and low ropes course, canoeing, field sports, and much more. Evening activities vary by night but traditionally include dances, hayrides, and a
