Program Description:	The KISS Aquatics Program is designed for children and youth with special needs who face a variety of physical and mental challenges in their lives. Together with a parent or guardian, participants work on physical movements in the water designed to enhance their general health and well-being. All family members are included in this swim session to allow interaction between all children in an equal environment. The YWCA building and pool area is handicapped accessible, including ramp entry to the building, easy rider built-in steps in the pool, and a hydraulic lift for chair bound participants. Contact us for more detailed information.
