Program Description:	The Short Term Care Program maintains a registry of screened and trained self-employed care providers who are available to provide respite in the family's home or in their own home. After a family is registered for the service, they have access to a list of registered providers. The family may also choose their own provider who is 18 years of age or older, and lives outside the family home. Families are reimbursed for all or part of their respite expenses, subject to a sliding scale (based on family income and size) and quarterly limits on expenses.
