Program Description:	Voices Together is a structured, integrated recreational day camp experience for children and teens with autism. Campers will participate in a variety of summer recreational activities, including music, swimming in a state-of-the-art indoor pool, various hands-on art activities, a sampling of non-competitive individual and team sports, and field trips. Our campers are supervised by trained teachers, with one-to-one adult aides (on an as needed basis). Perhaps the finest aspect of the camp is the participation of plenty of same age peers to round out the camp population. Call for further information.
