

Verbal Behavior Milestones Assessment and Placement Program

With Dr. Mark Sundberg

**Save the Date:
October 19 and 20, 2009
Waynesboro, Virginia**

The VDOE Autism Priority Project and the Shenandoah Valley Regional Program are proud to announce a two day training by Dr. Mark Sundberg on the Verbal Behavior Milestones Assessment and Placement Program (VB-MAPP). The VB-MAPP is a criterion-referenced assessment tool, curriculum guide, and skill tracking system that is designed for children with autism, and other individuals who demonstrate language delays.

The VB-MAPP provides a baseline level of performance, a direction for intervention, a system for tracking skill acquisition, a tool for outcome measures, and a framework for curriculum planning.

Participants in this 2 day training will receive a VB-MAPP Instructor's Manual and Placement Guide containing specific scoring criteria, a placement guide that offers specific suggestions for programming, and suggestions for IEP goals for each skill. Scoring forms and charts for the milestones, language and learning barriers, and other tools will also be provided.

Registration links will be available in July 2009 on www.ttaonline.org and through the Autism Priority Project's Autism E-news.

Sponsored by the VDOE Autism Priority Project and the Shenandoah Valley Regional Program
