

Explore the history and evolution of the field of interpersonal psychology

Handbook of Interpersonal Psychology is a field-defining volume that examines the history of interpersonal psychology and explores how it continues to evolve in the 21st century. The chapters in this unique text examine:

- Influential theories of normal-abnormal behaviors
- Widely-used assessment measures
- Recent methodological advances
- Current interpersonal strategies for changing problematic behaviors

Featuring original contributions from field luminaries including Aaron Pincus, Phillip Shaver, John Clarkin, Sidney Blatt, Louis Castonguay, and Lorna Smith Benjamin, this cutting-edge reference will appeal to mental health professionals interested in the study of normal and abnormal interpersonal behavior.

About the Editors

Leonard M. Horowitz, PhD, is Professor of Psychology at Stanford University. With Hans Strupp and Michael Lambert, he directed an APA task force on creating a core battery of standardized tests for evaluating the outcome of psychotherapy. He was president of the Society for Psychotherapy Research from 1992 to 1993 and president of the Society for Interpersonal Theory and Research from 1999 to 2000. He received the 2010 Distinguished Researcher Career Award from the Society for Psychotherapy Research.

Stephen Strack, PhD, is a staff psychologist at the VA Ambulatory Care Center in Los Angeles, California, and holds faculty appointments at Alliant International University, Los Angeles, and Fuller Graduate School of Psychology in Pasadena, California. He is the author or editor of nine books and test manuals including the *Handbook of Personology and Psychopathology* (Wiley).

Table of Contents

Foreword (*Leslie C. Morey*)

1. Introduction (*Stephen Strack & Leonard M. Horowitz*)
