

Technology Tuesdays

T/TAC at VCU Technology Lab
10 East Franklin Street, Suite 200
Register Online!

Technology Tuesdays are back for the 2009-2010 school year! These hands-on mini-sessions feature instructional and assistive technology (AT) topics that benefit students of all ages and abilities. Some sessions are new and others are popular repeats from the past. Check out the descriptions below and register online early to secure a spot! All sessions are scheduled from 4 - 6 pm at the VCU T/TAC, Richmond Office.

 **October 6 - Supporting Writing through AT** - This session will focus on the components of writing and AT solutions to address writing challenges for students with mild to moderate needs.

 **November 3 - Supporting Math with AT** - This workshop will focus on AT supports for a hands-on learning approach in math, which enhances retention and addresses conceptual knowledge.

 **January 12 - AT Solutions on Demand** - This session will cover the use of portable applications that can be loaded on a USB flash drive and used on multiple computers without installation. Participants will be given a loaded USB drive.

 **February 2 - Making Books Come to Life** - Come learn and share low to high tech strategies for making books come to life with young children. Make a digital book and an animated song!

 **February 16 - Supporting Improved Transition Outcomes through AT** - This session will focus on the use of AT with middle and high school students transitioning to post secondary placements in educational or community based settings.

 **March 2 - AAC - Supporting Communication with AT (Part 1)** - Learn the basic elements of communication; how to assess the form and function of your students' communication; and how to design low tech AAC tools.

 **March 16 - Supporting Reading with Assistive Technology** - This session will focus on AT solutions that support students in building reading skills and scaffold their engagement in reading in the content areas.

 **April 12 - Supporting Communication with AT (Part 2)** - Taking the Mystery Out of High Tech AAC - Come explore the features of high tech AAC devices and learn how to match features to the students' needs. This is a hands-on exploratory session targeting students of all ages.
