

Preparing for PERM – Payment Error Rate Measurement

BPS2350

Announcing! BPS2350: Preparing for PERM—Medicaid Error Reduction

Preparing for PERM – Medicaid Error Reduction is an online, interactive resource divided into individual subject matter modules. Each module is designed to stand alone to accommodate both time constraints and targeted reviews in those areas of policy which have proven to be most problematic and error prone.

After completion of all the individual modules, you will be able to:

- Correctly evaluate and determine countable values of bank accounts
- Correctly evaluate and determine countable values of life insurance policies
- Effectively document a case record
- Understand notification requirements
- Understand when a Medicaid application is required and what form to use
- Correctly evaluate countable values relating to Veteran's Income

Available Modules as of 2/19/2009:

Module 1: Banks Accounts

Module 2: Insurance Policies

Modules 3-6 coming soon!

You can register for Preparing for PERM by visiting the Knowledge Center Course Information and Enrollment page. You may access the modules when convenient for you and you can stop and start the modules as you'd like. After you've completed the modules, you can return to reference the material at any time.
