

Enrollee Benefits

SCREEN NAVIGATION

<i>Press Button/Key</i>	<i>System Response</i>
ENTER	Edits the data on the screen for correctness and displays the appropriate error message when necessary. No updates take place until PF2=UPDATE is pressed.
PF2=UPDATE	Command to save information entered in a create or update screen. Not applicable during an inquiry transaction.
PF6=RTRN	Returns to the Eligibility Data screen.
PF7=BKWD	Command to view the previous page of Benefit data. If this key is pressed, and there are no more Benefit segments on the Enrollee Database for the Enrollee ID on the screen, a message will appear.
PF8=FRWD	Command to view the next page of Benefit data. If this key is pressed, and there are no more Benefit segments on the Enrollee Database for the Enrollee ID on the screen, a message will appear.
PF12=EXIT	Returns to the Enrollment Menu.
